ABOUT CYPRUS

Cyprus was recently ranked as the 5th best relocation destination in the world (Knight Frank World Wealth Report 2018). Ranked by key business and leisure indicators, the Republic of Cyprus was the only European country alongside Switzerland and the only EU Member State, to make it into the top five – ahead of London, Madrid and Monaco. Coupled with what most international tax advisors agree is the most favorable onshore personal tax regime in the world, Cyprus provides an attractive destination for investor immigration.

With at least 320 days of sunshine a year, Cyprus was classified the sunniest European location, with recent studies conducted by global immigration experts ranking the CIP among the “top ten best in the world”.

LEGAL BASIS

The Cyprus Investment Programme, based on subsection (2) in Section 111A of the Civil Registry Laws of 2002 to 2019, was approved by the Cyprus Council of Ministers on 13 September 2016, and subsequently amended in May 2018 and February 2019. The latest amendments to the CIP are effective from 15 May 2019 onwards.

It may be argued that these recent revisions have made the CIP the most beneficial investor immigration programme in Europe. By virtue of this Law, the Council of Ministers of Cyprus may grant citizenship by naturalisation to foreign entrepreneurs. Additionally, the Law provides for the granting of Cypriot citizenship to the spouse, children, as well as the parents of the investor on the basis of the CIP. Neither the spouse nor the children are obliged to meet any additional financial criteria; however an additional financial criterion applies with regards to the parents of the main applicant (please refer to the below analysis for further guidance).
